DETAILED ACTION

Election/Restrictions

Restriction to one of the following inventions is required under 35 U.S.C. 121:

- I. Claims 1 - 38, drawn to a *method of operating a surveying rover*, classified in class 701, subclass 213.
- II. Claims 39 – 59 and 96 - 114, drawn to a *communications assembly* [for the rover], classified in class 701, subclass 36.
- III. Claims 59 - 74, drawn to a *rover*, classified in class 701, subclass 50.
- IV. Claims 75 - 95, drawn to a *method of determining a GPS coordinate of a location*, classified in class 701, subclass 214.
- V. Claims 115 - 119, drawn to an *article*, classified in class 701, subclass 216.

The inventions are distinct, each from the other because of the following reasons:

Art Unit: 3661

Inventions I, II, III, IV, and V are related as combination and subcombination.

Inventions in this relationship are distinct if it can be shown that (1) the combination as claimed does not require the particulars of the subcombination as claimed for patentability, and (2) that the subcombination has utility by itself or in other combinations (MPEP § 806.05(c)). In the instant case, the combination as claimed does not require the particulars of the subcombination as claimed because while they appear to GPS technology, operating a rover is not necessarily the rover itself or not the assembly for the rover itself or not necessarily determining the GPS coordinate of a location (which does not necessarily involve a rover).

Because these inventions are distinct for the reasons given above and have acquired a separate status in the art as shown by their different classification, restriction for examination purposes as indicated is proper.

The Examiner has contacted the attorney of record, namely, Mr. Shawn D. Bauer on Tuesday, 2 November 2004 to discuss the restriction. However, Mr. Bauer was not available. While a voice message was left, the call has not been returned to date.

Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim

Art Unit: 3661

remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).
